We invite students of teacher education from the universities of Gent, Tartu and Uppsala to the first **Teacher Education Plus BIP** on our Campus in Göttingen.

BIP stands for **Blended Intensive Program**, which is a program which includes:

- An **online course** where students first meet each other and their start groupwork
- A **week of program in Göttingen** where students meet, visit local school and during which students will finally present their groupwork

This seminar focuses on:

The recognition and reflection of ones' presumptions about school and education. Further the concepts of inter- and transculturality in education are examined. It is part of the Göttingen Program **Teacher Education Plus (Lehramt Plus)**, which fosters students' key competencies.

The online course will take place sometime in October 2022. The physical program in Göttingen runs from November 24th until November 29th. Participants will be provided with accommodation in a local hostel, including breakfast and an exciting academic and social program. There are no fees. Students must only organize their trip to Göttingen themselves.

Registration will start in summer 2022 via our [website](#).

We are looking forward to welcoming you in Göttingen!

Please contact us via e-mail to lehrerbildung.international@uni-goettingen.de if you have any questions.
